Foreclosure Auction of Benz, BMW and the People's Cherished Cars in Changhua Branch, Awaiting You to Take Them Home

Taiwan Changhua District Prosecutor's Office entrusted the Changhua Branch, Administrative Enforcement Agency, Ministry of Justice to carry out the auction of movable assets and confiscated goods seized during ongoing criminal investigations. 4 good cars, 1 small excavator and 1 scooter will be sold at 10:00 a.m. on December 5, 2023 at No. 367-5, Sec. 2, Zhongshan Road, Huatan Township, Changhua County, for the public to bid on and snatch up the purchase! Everyone is welcome to come to the auction and bring a nice car home to welcome the New Year!

The 2016 Mercedes-Benz GLC250 is a quiet and high-efficiency vehicle with the same smooth lines in the cabin as the exterior, creating a boutique hotel-like atmosphere of chic and luxury, and with a mileage of only 58,000 kilometers, it's an

absolute must-have. In addition to the Mercedes-Benz, which emphasizes taste and comfort, the foreclosure sale also includes the BMW 520 and 320, which emphasize driving experience and handling fun. With their dynamic and sporty appearance and excellent driving experience beyond their class, you can experience the feeling of "power comes from quality" right from the start. In addition to the German cars, the 2018 Toyota Camry is also a Japanese model that car enthusiasts consider to be fuel-efficient and durable. The interior materials have been greatly upgraded after a major overhaul this year, and the mileage of this piece is less than 48,000 kilometers, so it is a rare opportunity to own a "nationally-cherished car", and you should not miss this opportunity! All 4 vehicles in this sale are subject to a mortgage. Please note that the price of the vehicles does not include the amount of the mortgage, and the buyer will have to negotiate with the creditor for the settlement of the mortgage before the actual delivery of the vehicles.

The Changhua Branch was also entrusted to realize the price of an SK40SR-3 mini excavator imported from Japan and manufactured by KOBELCO (Kobe Steel) in 2004. With a small rotational radius, the excavator has been certified by a professional inspector as a serviceable piece of equipment with a running time of only 2,600 hours, making it a useful tool for tree transplantation, landscaping, and utility works, among others. One machine can be used for several people's work, making it extremely useful and at a very low price, thus an excellent choice for the buyer.

Apart from obtaining information on the auction items on the Changhua Branch's Facebook fan page (which can be linked to from the Changhua Branch's official homepage) or Instagram (account: chymoj168), visitors can also go to the Changhua Branch's official website, where the homepage can be linked to provide online viewing of all the items in the auction. Not only can you view the high-definition photo files, you can clearly observe the appearance and features of each item, as well as the bidding order of the items, but you can also get the details of the vehicles and excavator in this auction by linking to the auction announcement. Changhua Branch sincerely invites you to participate in the auction on December 5 at No. 5, 367, Sec. 2, Zhongshan Road, Huatan Township, Changhua County, to buy a good car at the end of the year 2023 and embrace the year 2024!
